

***SmartRenko Indicator
NinjaTrader 7
Installation Guide***

- The SmartRenko NinjaTrader Indicator is designed to run in NinjaTrader 7 Only
- Download the installation zip file from the website or at the following link
- <http://www.EminiSmartLevels.com/SmartRenko.zip>
- From the NinjaTrader Control Center, choose File/Utilities/Import NinjaScript...
- Navigate to and Select the downloaded zip file

- Set the Chart to the desired Symbol
- Click the Data Series button

- Select SmartRenko for the Period Type
- Adjust the settings as desired

- The SmartRenko bars will be displayed on the chart
- The previously hidden true bar movement of a traditional Renko chart will now be visible
